

一、本篇资料的主要内容

本篇资料反映全省规模以上工业生产和效益基本情况，主要包括规模以上工业、国有控股工业、外商投资和港澳台投资工业、非公有制工业的主要经济指标、相关的财务分析指标和主要工业产品产量等方面的内容。

二、本篇资料的统计范围

本篇资料中规模以上工业企业的统计范围：2007年至2010年为年主营业务收入500万元及以上的工业法人单位；从2011年开始，为年主营业务收入2000万元及以上的工业法人单位。

三、本篇资料的来源

本篇资料主要来源于工业统计年报，由省统计局工业统计处整理提供。

四、数据使用注意事项

2018年以来规模以上工业企业主要指标数据与往

年数据之间存在不可比因素，其主要原因是：（一）根据统计制度，每年定期对规模以上工业企业调查范围进行调整。每年有部分企业达到规模标准纳入调查范围，也有部分企业因规模变小而退出调查范围，还有新建投产企业、破产、注（吊）销企业等变化。（二）加强统计执法，对统计执法检查中发现的不符合规模以上工业统计要求的企业进行了清理，对相关基数依规进行了修正。（三）加强数据质量管理，剔除跨地区、跨行业重复统计数据。根据国家统计局开展的企业组织结构调查情况，对企业集团（公司）跨地区、跨行业重复计算进行了剔除。（四）“营改增”政策实施后，服务业企业改交增值税且税率较低，工业企业逐步将内部非工业生产经营活动剥离，转向服务业，使工业企业财务数据有所减小。

Brief Introduction

I. Content

Data in this chapter show the basic condition of industrial enterprises above designated size in Shandong, mainly including the output of major industrial products and major economic and relevant financial indicators of industrial enterprises. Industrial enterprises include enterprises above designated size, state-holding enterprises, foreign funded enterprises, enterprises with funds from Hong Kong, Macao and Taiwan, Non-public Industrial Enterprises.

II. Scopes of Statistics

The scopes of industrial enterprises above designated size were: all industrial enterprises with revenue from principal business over 5 million yuan from 2007 to 2010; and all industrial enterprises with revenue from principal business above 20 million yuan since 2011.

III. Source of Data

Data in this chapter are based on the annual report of industrial statistics and are prepared and provide by the Division of Industry Statistics of Shandong Provincial Bureau of Statistics.

IV. Data Usage Notes

Since 2018, Data of main indicators of industrial enterprises above designated size are not comparable with previous years, the reasons are as following: (1) According to

the statistical system, the investigation scope of industrial enterprises above designated size should be adjusted regularly every year. Every year, some enterprises meet the scale criteria to be included in the scope of investigation, some enterprises withdraw from the scope of investigation because of the smaller scale, and there are other changes: new enterprises, bankruptcy, annotation (cancellation) enterprises, etc. (2) Strengthening of statistical law enforcement, cleaning up enterprises found in the inspection of statistical law enforcement that do not meet the standard of industrial statistics above designated size, and amending the relevant cardinality in accordance with regulations. (3) Strengthening data quality management and eliminating duplicated statistical data across regions and across industries. According to the latest survey of organizational structure of enterprises carried out by the National Bureau of Statistics, the repeated calculation of enterprise groups (companies) across regions and industries is weighed. (4) After the implementation of the program to replace the business tax with a value-added tax, the value-added tax was paid by the service enterprises and the tax rate was lower. The industrial enterprises gradually stripped off the internal non-industrial production and operation activities and turned to the service industry, which reduced the financial data of the industrial enterprises.
